

Online Presentment and Payment FAQ's

General

What are some of the benefits of receiving my bill electronically?

It is convenient, saves time, reduces errors, bills don't get misplaced, allows you to receive bills anywhere at any time and it helps the environment by saving trees. You can continue to receive a paper bill but if you elect to go paperless, you can always print out a copy of the invoice if needed.

What are the benefits of paying a bill online?

Paying online with a credit card or electronic check saves time, gives you the flexibility to pay how and when desired, saves money (no more stamps, paper checks or envelopes) and Invoice Cloud will store your information for future use – but only if you choose to store it.

What is Invoice Cloud?

Invoice Cloud is a web-based, electronic invoice presentment and processing company that your biller has partnered with to provide faster, more convenient billing services to their customers. By automating billing and collections, customers can click and pay online while helping the environment and reducing clutter in their home or workspace.

What is the relationship between my biller and Invoice Cloud?

Your biller wanted to make paying bills easier for their customers, but didn't have the electronic presentment and payment systems required to display, safely process and store financial information. They chose Invoice Cloud because it is easy to use and the security is the strongest available. All the data collected is double encrypted and stored on secure servers. The data is not sold or released for any purpose other than to complete transactions.

Is there one account number for all of my bills?

No, account numbers for the different tax types vary. For instance:

- Real Estate - parcel ID
- Motor Vehicle - Account Number
- Personal Property - Account Number

If I pay different bills (i.e. property tax and motor vehicle) do I need to register twice?

Yes, one time registration is required for each bill type to access the resident portal. You need to register for each of the bill types and accounts you wish to pay online. If you own two parcels you will need to register both parcels. If you own multiple vehicles, you will need to register each vehicle. Once the initial registration process has been completed for each of your accounts, viewing and paying future invoices will be in place. Although you may use a different email address for each bill type account, we recommend using the same email address so that email notifications of bills due and payments made are always located in the same place.

Using the System

How does the system work?

It is very simple. Here are the 3 steps taken by customers:
